

Branch Co ordinators Report
Andover
January – April 2006

I would like to start by thanking everyone I have been in contact with for making me feel welcome in my new role.

I have been working on the Spring HCFF consultation researching Support for Young Parents and have found that we are privileged in Andover to have the facility of the Junction which hosts meetings and support for young parents.

I have had numerous calls from parents requesting information particularly about Parent and Toddler groups which I have given verbally but hope to research and compile an up to date list of groups in and around Andover for circulation this term.

I attended the Local Services Event at the Phoenix Centre which was extremely informative and enabled me to make many contacts and become more informed about local services I now feel in a position to signpost people to relevant agencies who enquire via HCFF.
